First Aid Sprays

Stay Protected From Infection On-The-Go

Safetec's First Aid Line includes Cut & Scrape Spray, Burn Spray, Hydrogen Peroxide Spray, and Isopropyl Alcohol Spray; each is an essential addition to your first-aid kit. These sprays are designed for easy application and are indispensable for promptly addressing life's little mishaps.

Safetec's Cut & Scrape Spray efficiently cleans and protects minor injuries, ensuring prompt care to prevent infection and promote optimal healing. Burn Spray offers immediate relief for first-degree burns from various incidents, while Hydrogen Peroxide Spray effectively disinfects cuts and scrapes, preventing cross-contamination and supporting the healing process. Isopropyl Alcohol Spray provides quick and efficient cleaning for minor wounds, ensuring a clean and safe environment during wound care.

Ideal for:

- Abrasions
- Blister Protection
- Burns
- Cuts
- Minor Skin Irritations
- Minor Wounds
- Scrapes
- Sunburn Blisters
